The image displays three screenshots from the DealerBet software interface, illustrating the tournament setup and play process.

**Left Screenshot: Tournament Setup**  
The interface shows a tournament configuration screen for Texas Hold'em. It includes fields for 'Achats/Prélèvement' (100/\$10), 'Niveau' (0/10), 'Catégorie' (L.T. Freez. N.Cave), and 'Etat' (EMERGENTIER). A table lists multiple tables (T1 to T14) with columns for 'NOM', 'CATEGORIE', 'Cave', 'JOUERS', and 'ETAT'. A yellow arrow points from this screen to the lobby.

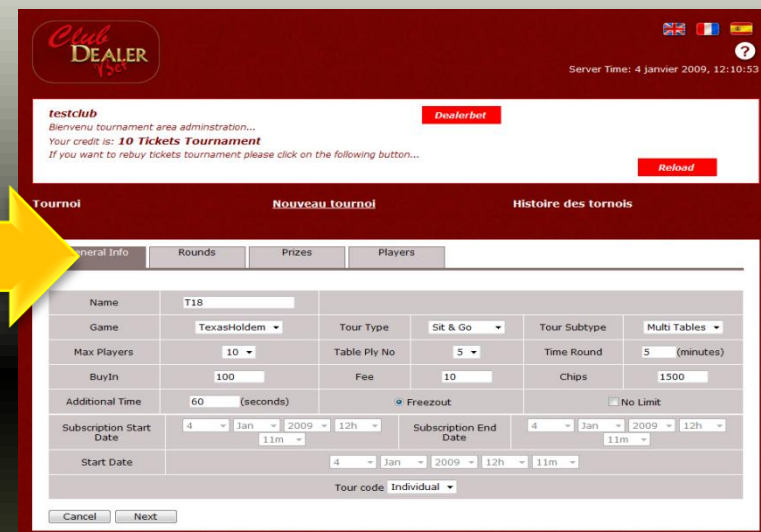

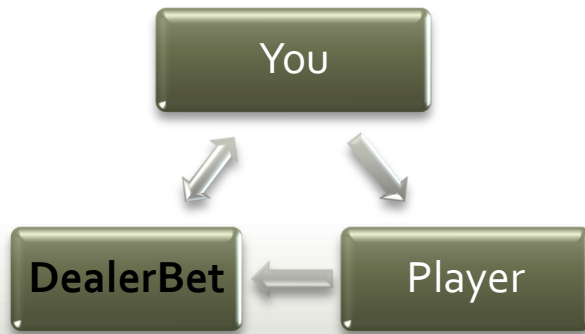

**Middle Screenshot: LOBBY TOURNOI (Testclub Z - No Limit Freezout)**  
The lobby screen displays tournament details: 'Achat: 100 Fee: 10', 'Entrants: 2', and 'Tournoi commencé à: 29 Janvier 2009, 21:57'. It shows a 'Prix / Total' breakdown: 1->60% (\$120), 2->25% (\$50), and 3->15% (\$30). A table lists players: PierreLouis (ELO 0, Score 0) and mania (ELO 0, Score 0). A yellow arrow points from the lobby to the live table.

**Right Screenshot: Live Poker Table**  
The live table shows a Texas Hold'em hand in progress. The community cards are 7♠, 8♥, 9♦, 10♣, and J♠. The pot is \$12.27. The table is populated with players: PierreLouis (\$48.25), mania (\$1500), and others. A 'JACKPOT' banner is visible at the top right. A yellow arrow points from the lobby to this table.
